

# Sebastian Gutierrez Guisao

Frontend Developer

## About me

I'm a software developer, my forte is frontend development, in the last years I've been preparing myself and continue learning new skills mostly with react and javascript.

I try to keep a curious mentality of wanting to learn more every day, my goal is to become a fullstack developer.

## WORK EXPERIENCE

### SOFTWARE ENGINEER MID I - JIKKOSOFT, Cali

MARCH 2021 - AUGUST 2022

Development and maintenance of a virtual tax collection application, focused on the mayor's offices of the cities of colombia.

**Technologies Used:** React js, Typescript , SASS, Node.

### DATABASE TRAINING - SETI, Medellin

SEPTEMBER 2019 - MARCH 2021

Development, management and maintenance of the databases of a financial company, performing the process of migrating local databases to virtual databases.

**Technologies used:** Visual Studio, SQL Managment, Command console, Power Automate, HTML

## Projects

### YOUS

Development of an application that shortens URL, the project was done as a practice, to connect the front with the back.

**Technologies used:** React js, react router, React redux, NPM, Webpack, Node, Django.

### Udinary

Development of a landing page based on a design made by the UX and UI staff.

**Technologies used:** React js, React router, React redux, Yarn, Webpack, Node.

### Curriculum Vitae

Development of my own personal website, a virtual resume, in this site I put into practice everything I learned about frontend development.

**Technologies used:** React js, React router, NPM, Webpack, Firebase

Conversational

## Activities & interests

Outside my work, I am a quiet person, I like to cook all kinds of food, I like to be at home reading or playing video games.

I also like to exercise, I enjoy my pets and drinking coffee without sugar.
